

Frames for laser safety goggles

The models with "C" allow the use over prescription glasses

Select the proper eyewear/filters and check available frames. The colour will depend on the chosen filter; it won't be necessarily the one in the photos of this catalogue.

Here you can see all the available [laser protection filters](#), certified EN 207 (or EN 208)

Gladiator (C)

Valid over prescription glasses
Very large field of vision with angled front
